

Don't Kick State Workers Out of the Middle Class!

To run a university* you need a quality staff.

To live in a strong community you need a middle class.

A punch in the middle section knocks the system on its a** --

Don't kick the workers out of the middle class!

**CHORUS: Our Quality Work deserves a Living Family Wage!
Our Quality Work deserves a Living Family Wage!
Our Quality Work deserves a Living Family Wage!
Don't kick the workers out of the middle class!**

Driving down the price of Quality Work just drives the tax base down,

Drives working folks to poverty, depresses our whole town. *(whole State!)*

So strike a blow for better days --- Fair Pay is not a giveaway!

Stop kicking the workers out of the middle class!

Tune: Battle Hymn of the Republic. Words © 2009 by Watt S. Tinker
