

STAND UP FOR FAIRNESS

(Tune: "My Bonnie Lies Over The Ocean")

1. The O.U.S. classified workers
Are ready to stand up and fight!
There's not one of us who's a shirker:
It's time they start treating us right.

CHORUS: Stand up, stand up,
Stand up for fairness and equity!
Stand up, stand up,
Stand up for you and for me!

2. This system is rolling in money.
We know they've got plenty of dough.
Their future is rosy and sunny,
So why are my wages so low?
3. The classified workers are starving,
While bosses get raises and perks.
A big piece of pie they are carving,
But who do you think does the work?
4. Now S E I U is insisting
That we get our share of the pie,
But so far the boss is resisting
And feeding us pie-in-the-sky.
5. They made me take off for a furlough.
They said that their budget is tight.
My pay is already for sure low.
This picture somehow is not right.
6. They've always got funds for consulting,
For deans and directors galore,
So it's nothing short of insulting,
When they have the nerve to cry poor.
